

We do not wish to add to the barrage of information regarding COVID-19 however, amid all of the warnings and notifications we have decided to implement the following procedure in order to limit exposure as much as possible.

NO CONTACT KEY DROPBOX:

In the front of our building is a blue key drop box. Even during business hours, if you would like to avoid coming inside, you may drop your vehicle keys in the drop box for your car to be serviced.

COMMUNICATION:

You have the ability through email, text and phone to set up your appointments for service. Did you know? We also have an online appointment generator that will notify us of your preference for service, time and date. Visit dennersgarage.com and click "Request an Appointment".

MOBILE PAYMENT:

In addition to updating you on your service, when it is complete, we can take all major debit and credit card payments over the phone prior to picking up your vehicle. There is no need to wait at the shop or enter the building after service unless you choose to.

VEHICLE PICK UP:

When you are ready to pick up your vehicle, we can disinfect your keys, steering wheel and door handles and leave the keys wherever you desire.
